## DETAILED ACTION

### *Election/Restrictions*

This application contains claims directed to the following patentably distinct species:

**Species I – claims 2-3, 5, 49, 51, 54-57, 61-65, 69-72, 76-80, 84-87,** drawn to class **715/526**, Document display processing.

**Species II – claims 52-53, 58, 67-68, 73, 82-83, 88,** drawn to class **715/788**, layout modification, move or resizing.

**Species III – claims 59, 74, 89,** drawn to class **715/792**, layout, tiling or split pane.

The species are independent or distinct because Species I substantially drawn to document display (i.e. thread display, etc.). Species II is substantially drawn to area resizing. Species II substantially drawn to a plurality of display areas (i.e. split pane).

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. **Currently, independent claims 1, 60, 75 are generic – class 715/500.1.**

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Art Unit: 2176

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).
